Dear Ms Bay

Updated Development Control Data for the proposed South Downs National Park area

Could you please ensure that the Inspector receives copies of this letter together with the two attached tables.

At the original Inquiry, evidence was presented by a number of the constituent local authorities within the proposed National Park area using the data provided in Table 95(f)(i) for 2002-03.

Due to the passage of time, it was felt appropriate to update that table and so Stephen Olivant (Planning Consultant) has produced Table 177(iii) based on data provided by the constituent authorities.

The updated table confirms the continuing high level of development control activity within the original Countryside Agency promoted SDNP area, and supports the case made by those authorities that some form of delegation arrangements will be needed if the proposed National Park is designated along its original boundary and if the NPA is not to get subsumed in the bureaucracy associated with a large number of applications.

Should the Inspector have any queries concerning this data, please contact me.

Yours sincerely

SAM HOWES
Deputy Chief Executive
